

## Peter Robson

### *Fund Manager*

Peter is the manager of TreeTop Global Opportunities.

### **His investment philosophy**

Fundamental to Peter's approach is a belief that earnings growth acceleration will deliver the best absolute returns. Peter builds his portfolio by selecting 50 to 70 stocks of companies that show this earning growth acceleration pattern and that are active in sectors and markets he deems favourable. In parallel, with this bottom-up stock picking approach, Peter ensures that the portfolio is invested globally.

### **Career history**

Peter has more than 20 years of experience as a fund manager investing in the global equity markets, having managed a broad range of Institutional and Retail products. He began his career in 1987, with BZW Investment Management. Before joining TreeTop Asset Management in 2007, Peter was a Partner at TT International, where he was responsible for investments in Asia. Previously, Peter was in charge of the "Global Select" strategy at Oechsle International in Boston from 2000 to 2004.
