

TreeTop Global Quantitative Strategies Sub-fund of TreeTop SICAV

Managed by TreeTop Asset Management S.A., Management company under Luxembourg law

The present marketing communication on its own does not give complete information about the SICAV and should therefore be read before any investment together with the Key Information Document (KID), the prospectus as well as the latest annual/semi-annual report of the SICAV.

Technical Datasheet

General information

Name of the sub-fund	TreeTop Global Quantitative Strategies, a sub-fund of TreeTop SICAV			
Legal form	Sub-fund of a SICAV under Belgian law			
Type of financial product	Undertaking for Collective Investment			
Duration of the product	Indefinite			
Currency	EUR			
Investment objective (related to class P EUR)	<p>The product aims to increase the value of your investment over the long-term.</p> <p>The product will invest, directly or indirectly through units of UCIs, in a diversified portfolio of equities selected using various quantitative or index-based investment strategies. A quantitative investment strategy is a systematic investment method that uses mathematical models and statistical analysis to select and manage assets. It minimises human bias by using data-driven rules for portfolio construction, risk management and asset allocation. The selection of investment strategies and the allocation of the product portfolio to these different strategies will be reviewed periodically by the Management Company and will aim to ensure diversification across investment strategies, sectors and geographic areas. The product may invest in shares of undertakings for collective investment managed or promoted by the Management Company or affiliates of the Management Company, including other products of the SICAV.</p> <p>The product is actively managed without referring to any stock market indices.</p> <p>You can request the redemption of the product every bank working day in Brussels. Redemption orders are processed on a daily basis, subject to the limitations provided for in the prospectus and the articles of association.</p> <p>This product does not distribute dividends (which means that the income generated by the product is added to the share price).</p> <p>The product is aimed for the general public, i.e., individuals or legal entities wishing to invest for the long term (we recommend an investment horizon of 6 years). The investor must have a good knowledge of the risks associated with financial markets and be prepared to accept capital losses due to fluctuations in the value of the assets in the portfolio.</p> <p>These objectives as well as the investment policy are an exact copy of those indicated in the corresponding KID.</p> <p>The investment which is promoted concerns the acquisition of units or shares in a fund, and not in a given underlying asset.</p>			
Share classes	Class	Dividend policy	Launch date	ISIN code
	P EUR	Capitalisation	29/09/2025	BE6366843546
	PH EUR	Capitalisation	29/09/2025	BE6366847588

Risk Indicator (class P EUR)

For further information on the risks and the risk indicator of the fund, please refer to the latest KID of the concerned classes.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This indicator assesses potential losses in future returns at a medium level, and poor market conditions could affect the value of the shares in which the product invests and therefore the value of the product itself. This level of risk reflects the fact that the product invests in shares which are more volatile than bonds or money market instruments.

Under unusual market conditions, additional risks could arise: Capital risk (the product is not subject to capital guarantee or capital protection, investors may therefore lose all or part of their capital), sustainability risk (environmental, social or governance event or condition that could cause an important negative impact on the value of an investment), risk associated with external factors (uncertainty relating to certain environmental elements, such as the tax regime) and currency exchange risk (the product invests in securities denominated in currencies other than that of the product, the risk that the value of an investment may be influenced by exchange rate fluctuations is real). Please refer to the prospectus for more details.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Legal information

This Quarterly Report should not be considered as investment advice.

Complaints can be addressed to the attention of the “Compliance Officer”, at the following address: TreeTop Asset Management S.A., Belgium Branch, rue des Francs, 79 b7, 1040 Brussels. We will send you an acknowledgement of receipt within 5 working days. We will analyze your complaint, if necessary in consultation with the management company, and give a detailed response in the month following its receipt, provided that the complaint is complete and specific.

Complaints relating to investment products and services can be addressed to the Ombudsfin (Banks, Credits and Investments Mediation Service), North Gate II, Avenue Roi Albert II 8, B-1000 Brussels (www.ombudsfin.be or ombudsman@ombudsfin.be). The mediation service may suggest solutions for resolving the dispute. In the event of a lack of mutual acceptance of the proposed solutions, either party can turn to the competent courts.

You can obtain a summary of the rights of investors at <https://www.treetopam.com/en/regulatory-information> (in English) in the section “Rights of investors in UCIs managed by TreeTop”.

GLOSSARY

The word "**FUND**" is used as a generic term to designate a SICAV or a sub-fund of a SICAV.

CONSUMER DISCRETIONARY SECTOR: The Consumer Discretionary Sector encompasses those businesses that tend to be the most sensitive to economic cycles. Its manufacturing segment includes automotive, household durable goods, leisure equipment and textiles & apparel. The services segment includes hotels, restaurants and other leisure facilities, media production and services, and consumer retailing and services.

CONSUMER STAPLES SECTOR: The Consumer Staples Sector comprises companies whose businesses are less sensitive to economic cycles. It includes manufacturers and distributors of food, beverages and tobacco and producers of non-durable household goods and personal products. It also includes food & drug retailing companies as well as hypermarkets and consumer super centers.
