

TreeTop World Select Equity Index
Sub-fund of TreeTop SICAV

Managed by TreeTop Asset Management S.A., Management company under Luxembourg law

The present marketing communication on its own does not give complete information about the SICAV and should therefore be read before any investment together with the Key Information Document (KID), the prospectus as well as the latest annual/semi-annual report of the SICAV.

Technical Datasheet

General information

Name of the sub-fund	TreeTop World Select Equity Index, a sub-fund of TreeTop SICAV
Legal form	Sub-fund of a SICAV under Belgian law
Type of financial product	Undertaking for Collective Investment
Duration of the product	Indefinite
Currency	EUR
Investment objective (related to class A EUR)	The product aims to replicate, as closely as possible, within the framework of passive management, the performance of the MSCI ACWI Select Filtered Index, net dividends reinvested (net return) (the "Index"), regardless of whether its performance is positive or negative. The management company aims to achieve a tracking error (ex-ante) between the performance of the product and that of the Index of less than 1.5% (without any guarantee being given in this regard by the management company). The Index is an equity index calculated and published by the international index provider MSCI ("MSCI"). The shares forming the MSCI ACWI Select Filtered Index are among the most significant values of the equity markets in developed and emerging countries, by applying selection criteria to exclude companies involved in activities that do not meet the environmental, social or governance (ESG) standards determined by MSCI. Exposure to the Index will be mainly achieved through physical replication with a direct investment in all components of the Index. This replication may result in portfolio transaction costs that could have a significant impact on returns and will be supported by the product's assets. However, in order to handle the entries and exits, as well as any characteristics of the local equity markets (market access, liquidity, local tax requirements, etc.), the Management Company will be able to combine physical replication with synthetic replication through other UCIs, including Exchange Traded Funds and derivative instruments, such as equity index or share futures contracts. In the event of synthetic replication of the Index, counterparty risk will be higher. You can request the redemption of your units on any bank business day in Brussels. Redemption orders are processed on a daily basis, subject to the limitations provided for in the prospectus and the articles of association. This product does not distribute dividends (which means that the income generated is added to the price of the product). The product is aimed for the general public, i.e., individuals or legal entities wishing to invest for the long term (we recommend an investment horizon of 5 years). The investor must have a good knowledge of the risks associated with financial markets and be prepared to accept capital losses due to fluctuations in the value of the assets in the portfolio. These objectives as well as the investment policy are an exact copy of those indicated in the corresponding KID. The investment which is promoted concerns the acquisition of units or shares in a fund, and not in a given underlying asset.

Share classes	**Class** A EUR AH EUR	**Dividend policy** Capitalisation Capitalisation	**Launch date** 09/03/2015 09/03/2015	**ISIN code** BE6275981817 BE6275985859
Sub-fund assets (as of 30/09/2026)	€ 400 million			
Recommended holding period	More than 5 years			
Characteristics of the MSCI ACWI Select Filtered Index and ESG information (Related to environmental, social of governance aspects)	**TreeTop World Select Equity Index is a product promoting environmental or social characteristics in the sense of article 8 of the SFDR, since it replicates the MSCI ACWI Select Filtered Index, and it does not have a sustainable investment objective.** It is a passively managed fund. The construction of the Index is based on a screening process using ESG criteria and optimisation applied to the MSCI ACWI ("Parent Index"): a global index that tracks the equity performance of nearly 3,000 large- and mid-cap companies across 23 developed and 24 emerging markets, covering roughly 85% of world market capitalisation. Companies in the Parent Index are assessed by MSCI according to their ability to manage risks and opportunities using MSCI's own ESG criteria. **The assessment considers around 35 ESG issues**, such as (i) environmental: carbon footprint of products and water usage, (ii) social: health and safety at work, product quality and safety and (iii) governance: board composition and shareholder rights. Each company receives an ESG rating ranging from "AAA" ("Best in Class") to "CCC" ("laggards"). **The Index excludes companies from the Parent Index** that are involved in activities that do not meet the specified sustainability criteria, namely: • companies that receive an MSCI ESG rating of "CCC"; • companies linked to conventional, controversial, civilian or nuclear weapons, as well as to tobacco, palm-oil, and Arctic oil and gas; • companies whose revenues derive from thermal-coal energy or the extraction of certain fossil fuels; • companies involved in activities that are subject to serious controversy; • companies that do not comply with the United Nations Global Compact principles. Once the ESG filter is applied, **the relative weight of each remaining stock in the Index is adjusted** in order to (i) create a portfolio that mirrors as closely as possible the sector and geographic profile of the original MSCI ACWI and (ii) achieve at least a 30 % reduction in carbon-emission intensity relative to the Parent Index. MSCI Inc. is the international index provider responsible for evaluating the Select criteria (more information available at www.msci.com). The decision to invest in the promoted fund should take into account all the characteristics or objectives of the promoted fund. For more information related to environmental, social or governance aspects, please refer to TreeTop SICAV's prospectus.

This tax is with held at source, unless the investor notifies their financial intermediary otherwise. Capital losses on financial assets may be deducted from the taxable base. If withholding tax is applied, the intermediary may not itself deduct the capital losses or apply the statutory exemption*.
	The tax regime applies to an average retail customer, being a natural person residing in Belgium.

Risk Indicator (class A EUR)

For further information on the risks and the risk indicator of the fund, please refer to the latest KID of the concerned classes.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 4 out of 7, which is a medium risk class. This indicator assesses potential losses in future returns at a medium level, and poor market conditions could affect the value of the shares in which the product invests and therefore the value of the product itself.
This level of risk reflects the fact that the product invests in shares which are more volatile than bonds or money market instruments.
Under unusual market conditions, additional risks could arise: sustainability risk (environmental, social or governance event or condition that could cause an important negative impact on the value of an investment), counterparty risk (the risk that the credit institution may not honour its commitments with regard these instruments. This risk is present when using financial derivative instruments to ensure the synthetic replication of the Index or to hedge the currency risk) and the currency exchange risk (the product invests in securities denominated in currencies other than that of the product, the risk that the value of an investment may be influenced by exchange rate fluctuations is real). Please refer to the prospectus for more details. This product does not include any protection from future market performance so you could lose some or all of your investment.

Legal information

This Quarterly Report should not be considered as investment advice.

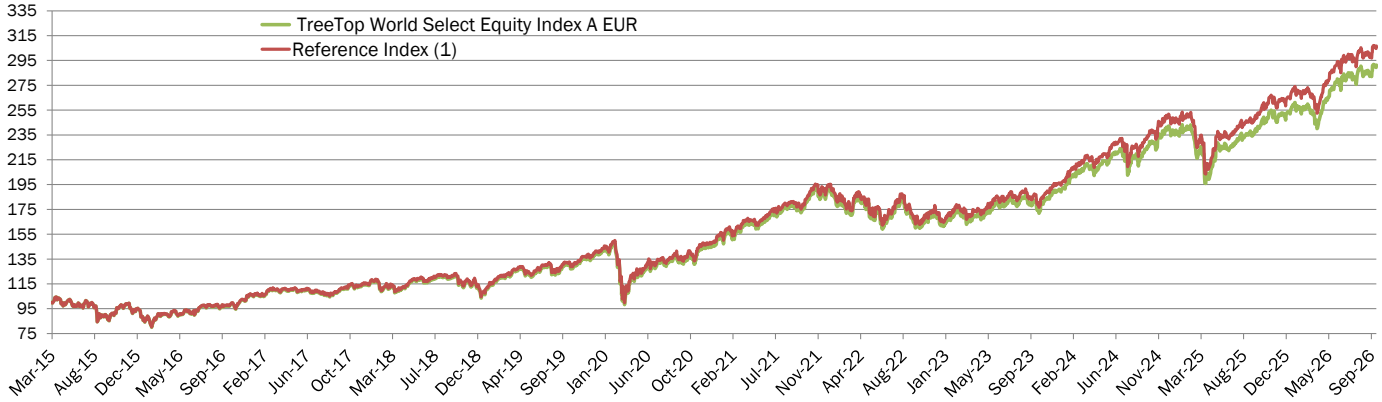

Complaints can be addressed to the attention of the “Compliance Officer”, at the following address: TreeTop Asset Management S.A., Belgium Branch, rue des Francs, 79 b7, 1040 Brussels. We will send you an acknowledgement of receipt within 5 working days. We will analyze your complaint, if necessary in consultation with the management company, and give a detailed response in the month following its receipt, provided that the complaint is complete and specific.

Complaints relating to investment products and services can be addressed to the Ombudsfin (Banks, Credits and Investments Mediation Service), North Gate II, Avenue Roi Albert II 8, B-1000 Brussels (www.ombudsfin.be or ombudsman@ombudsfin.be). The mediation service may suggest solutions for resolving the dispute. In the event of a lack of mutual acceptance of the proposed solutions, either party can turn to the competent courts.

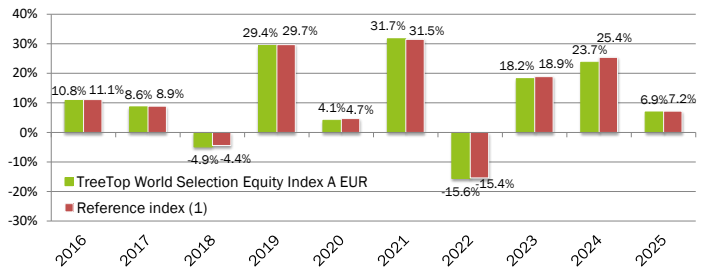

You can obtain a summary of the rights of investors at https://www.treetopam.com/en/regulatory-information (in English) in the section “Rights of investors in UCIs managed by TreeTop”.

GLOSSARY

The word "**FUND**" is used as a generic term to designate a SICAV or a sub-fund of a SICAV.

PASSIVE MANAGEMENT aims to replicate the performance of a benchmark stock market index as closely as possible. As the chosen benchmark index comprises numerous components, passive management provides access to a highly diversified portfolio.

CONSUMER DISCRETIONARY SECTOR: The Consumer Discretionary Sector encompasses those businesses that tend to be the most sensitive to economic cycles. Its manufacturing segment includes automotive, household durable goods, leisure equipment and textiles & apparel. The services segment includes hotels, restaurants and other leisure facilities, media production and services, and consumer retailing and services.

CONSUMER STAPLES SECTOR: The Consumer Staples Sector comprises companies whose businesses are less sensitive to economic cycles. It includes manufacturers and distributors of food, beverages and tobacco and producers of non-durable household goods and personal products. It also includes food & drug retailing companies as well as hypermarkets and consumer super centers.
