Notes to the Financial Statements

as at June 30th, 2015

NOTE 1 - ACCOUNTING PRINCIPLES AND METHODS

The financial statements of the SICAV are prepared in accordance with the relevant regulations governing UCITS.

a) Valuation of investments

The valuation of securities admitted on an official market is based on the last available price on June 30th, 2015 and, where there are several markets, at the price quoted on the main market on which the security is traded.

The valuation of securities admitted on any other regulated market is based on the last available price and, where there are several markets, at the price quoted on the main market on which the security is traded.

The valuation of securities which are not quoted on an official market and whose price is not representative is based on the last available market price or, where no market price is available, on the probable realisation value estimated with prudence by the Board of Directors.

b) Net realised profit or loss on sale of investments

The net realised profit or loss on sale of investments is determined on the basis of the average cost of investments sold.

c) Net unrealised profit or loss on forward exchange contracts

The profit or loss from outstanding forward exchange contracts will be recognised at the closing date at the exchange rate prevailing on that date.

d) Conversion of foreign currencies

All assets expressed in currencies other than the Sub-Fund's currency are converted into the Sub-Fund's currency at the exchange rate prevailing in Luxembourg at the closing date of the financial statements (note 2).

The value of the SICAV's net assets equals the sum of the net asset values of its Sub-Funds converted into EURO at the exchange rate prevailing in Luxembourg at the closing date of the financial statements.

e) Acquisition cost of investments

The acquisition cost of investments expressed in currencies other than the SICAV's currency is converted into the Sub-Fund's currency at the exchange rate prevailing at the purchase date.

f) Unrealised profit or loss

In accordance with current regulation, unrealised profits or losses at the end of the Financial Year/Period are accounted for in the "Statement of Operations".

g) Purchases and sales of investments

The details of purchases and sales of investments may be obtained freely at the registered office of the SICAV.

**Notes to the Financial Statements
as at June 30th, 2015 (continued)**

NOTE 1 - ACCOUNTING PRINCIPLES AND METHODS (continued)

h) Structured product

The SICAV may invest in structured products including, for example, synthetic convertible bonds and capital guaranteed notes. The term 'structured product' refers to transferable securities issued by financial institutions and created with the aim of restructuring the investment characteristics of certain other investments (the 'underlying assets'). As part of this process, the institutions issue securities (the 'structured products') representing interests in the underlying assets. The assets underlying these structured products must represent eligible liquid financial assets or financial indices and fall within the investment policy and objectives of the relevant Sub-Fund.

i) Set-up costs

Set-up costs are amortised on a linear basis over a period of 5 years.

j) Income

Interest on bonds and fixed-term deposits is calculated on a daily basis. Dividends are recorded on the date on which the relevant securities are quoted ex-dividend for the first time.

k) Valuation of options, futures, spot and forward foreign exchanges

The liquidation value of futures, spot and options contracts not traded on equity or other regulated markets is their net liquidation value as set in accordance with the policies decided by the Board of Directors on a basis applied in a coherent manner to each type of contract. The liquidation value of futures, spot and options contracts which are traded on equity or other regulated markets is based on the last available settlement price for such contracts on the equity and other regulated markets on which these futures, spot and options contracts are traded by the SICAV. If a futures, spot or options contract cannot be liquidated on the day on which the net assets are valued, the basis used to determine the liquidation value of the contract shall be set by the Board of Directors in a fair and reasonable manner.

The unrealised gain or loss on forward contracts is valued on basis of the "forward" rates available on the valuation date of the Net Asset calculation.

Sub-Fund	Class	Management Fees
TreeTop Sequoia Equity	A	1,20%

Moreover, the Management Company will receive from the SICAV for TreeTop Sequoia Equity, TreeTop Global Dynamic, TreeTop Conviction and on all classes A, B and C for TreeTop Global Opportunities a performance fee of 12% of the positive increase in the NAV per share before calculation of the performance fee, in comparison with the reference NAV per share. The reference NAV per share is the highest ever previously achieved by the Sub-Fund.

For TreeTop Global Balanced, the Management Company receive a performance fee of 12% of the positive increase of the NAV per share before calculation of the performance fee, in relation to the benchmark NAV per share, above a minimum performance threshold. The minimum performance threshold is intended to take into account the portfolio's fixed-income component.

**Notes to the Financial Statements
as at June 30th, 2015 (continued)**

NOTE 4 - MANAGEMENT AND PERFORMANCE FEES (continued)

The minimum performance threshold is set at the beginning of each year for the full financial year at 50% of the average yield of German 5-year Government Bonds during the 7 previous working days. Whenever the NAV is calculated, as soon as the NAV per share is higher than the benchmark NAV per share and the performance since the beginning of the current financial year exceeds the minimum performance threshold on a pro rata basis for the period, a daily provision of 12% of this outperformance shall be created.

In the case of dividends payments, these will be added to the NAV in order to calculate the highest NAV ever achieved.

The performance fee is charged at each NAV calculation on the basis of the number of shares in the Sub-Fund outstanding on the day the NAV is calculated. The amount thus charged by the SICAV is paid to the Management Company at the end of each quarter.

For the actions of the classes R in Euro, SEK and NOK and I in Euro, USD, GBP and NOK, the Management Company will perceive if necessary a commission of performance of 15% of the surperformance of the VNI by action compared to the performance of the index of reference: the MSCI AC World which takes into account of the reinvestment of net dividends and expressed in the currency of the concerned class R in Euro and SEK and I in Euro, USD and GBP and the MSCI AC World which takes into account the reinvestment of net dividends and expressed in local currencies for the classes R in NOK and I in NOK.

For classes R in Euro, SEK and NOK and I in Euro, USD, GBP and NOK, with each calculation of VNI, provided the performance of the class concerned during the base period exceeds the performance of the index, a provision of 15% of the surperformance will be made up. The base period is the period going from the date of the last payment of a commission of performance until the date of calculation of the VNI. In the case of figure where the performance of the classes exceeds the performance of the index no provision is not made up. When shares are redeemed by shareholders, the performance fees set aside by way of a provision for these shares shall be deemed to be acquired by the Management Company.

On the date of the last NAV calculation in June and December of every year, the amount of the performance fee set aside by way of a provision shall be acquired by and paid to the Management Company.

NOTE 5 - SUBSCRIPTION TAX

The SICAV is subject to Luxembourg tax legislation.

Under current laws and regulations, the SICAV is subject to the subscription tax ('taxe d'abonnement') in Luxembourg at an annual rate of 0,05%, such tax being payable quarterly and calculated on the basis of the net assets at the end of the relevant quarter. This rate has been updated for Class I shares to 0,01%.

As the SICAV is registered in Belgium, it is subject to a further tax at the annual rate of 0.0925% calculated for 2015 on the basis of the value of the shares distributed in Belgium as recorded at December 31st, 2014.

NOTE 6 - FEES AND CHARGES
